

**CONSORTIUM FOR CITIZENS  
WITH DISABILITIES**

Statement of Kim Musheno, Chair of the Consortium for Citizens with Disabilities:

CCD strongly condemns the House vote today to roll back the civil rights of people with disabilities under the Americans with Disabilities Act. The ADA was passed with overwhelming bipartisan support, and has dramatically changed the lives of people with disabilities. Today's vote will take us back several decades and make it harder for people with disabilities to access the mainstream of society. We call on the Senate to reject any effort to weaken the ADA.
